Course Overview

This one-day, evidence-based professional development experience introduces healthcare providers to the principles and practices of Mindful Self-Compassion (MSC), developed by Kristin Neff and Christopher Germer. Drawing on a research base of thousands of studies, the day combines psychoeducation, guided experiential practice, reflection, and small-group learning to help participants build the internal resources that sustain compassionate, effective care. Content is adapted specifically for healthcare settings, with attention to the emotional demands of clinical work: high-stakes decision-making, exposure to suffering, moral distress, and the risk of burnout and compassion fatigue. Participants leave with a working understanding of self-compassion's three components, direct experience with brief practices they can use during a clinical shift, and a personal plan for integrating these skills into daily practice. Facilitation is grounded in CMSC's international teaching standards and led by an experienced Mindful Self-Compassion teacher and program developer.

Course Objectives

Upon completion participants should be able to:

- Summarize the current evidence base for Mindful Self-Compassion, including its documented effects on stress, emotional exhaustion, resilience, and professional quality of life among healthcare providers
- Define and differentiate the three core components of self-compassion — mindfulness, common humanity, and self-kindness — and describe how each supports emotional regulation
- Explain the relationship between self-compassion, burnout, resilience, and the quality of patient care and team communication
- Demonstrate at least two brief, evidence-informed self-compassion practices that can be applied in real time during a clinical workday
- Apply self-compassion skills to moments of stress, clinical mistakes, difficult emotions, and self-criticism in order to support faster recovery and clearer decision-making
- Develop a personalized plan for integrating self-compassion practices into daily professional and personal life beyond the training day

Registration Fees:

Early bird rate: \$150

After September 30: \$175

Accreditation Statement

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, Children's Hospital of Philadelphia is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Designation of Credit

Physicians: Children's Hospital of Philadelphia designates this live activity for a maximum of 5.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses: This program provides 5.5 ANCC contact hours.

Completion of this RD/DTR profession-specific or IPCE activity awards CPEUs (1 IPCE credits = 1 CPEU). If the activity is dietetics related but not targeted to RDs or DTRs, CPEUs may be claimed which are commensurate with participation in contact hours (1 hour/60 minutes = 1 CPEU). RDs and DTRs are to select activity type 102 in their Activity Logs. Performance Indicator selection is at the learner's discretion.

RD/DTR: This activity awards 5.5 CPEUs.

Physician Assistant: Children's Hospital of Philadelphia has been authorized by the American Academy of Physician Associates (AAPA) to award AAPA Category 1 CME credit for activities planned in accordance with AAPA CME Criteria. This activity is designated for 5.5 AAPA Category 1 CME credits. PAs should only claim credit commensurate with the extent of their participation.

American Psychological Association Statement

AMERICAN
PSYCHOLOGICAL
ASSOCIATION

Continuing Education (CE) credits for psychologists are provided through the co-sponsorship of the American Psychological Association (APA) Office of Continuing Education in Psychology (CEP). The APA CEP Office maintains responsibility for the content of the programs.

Psychologists: This activity provides 5.5 APA CE credit.
