

A smiling woman and a young girl are standing in a brightly lit hospital hallway. The woman, wearing a pink long-sleeved shirt with the Children's Hospital of Philadelphia logo and teal pants, is leaning against a white wall. The girl, wearing a pink shirt and a white skirt with a pink polka-dot pattern, is also leaning against the wall and smiling. The hallway has a light blue wall and a white ceiling with recessed lights.

18th Annual Advanced Practice Nurse Conference: Positioning for the Future of Healthcare

COURSE OVERVIEW

2017 marks the 18th anniversary of Children's Hospital of Philadelphia's Annual Advanced Practice Nurse Conference. The conference covers timely professional topics and up-to-date clinical care of children and adolescents who present with complex medical and behavioral issues. Opportunities for interactive learning and professional networking will augment the didactic component of the sessions. The conference is targeted to advanced practice nurses in primary care and acute/chronic specialties. Nursing and pharmacology CEUs will be provided by the American Nurses Credentialing Center's Commission on Accreditation (ANCC).

KEYNOTE SPEAKER

Madeline Bell, President and CEO, Children's Hospital of Philadelphia

Ms. Bell began her career as a pediatric nurse at CHOP in 1983, later leaving the organization to move into hospital administration. She returned to CHOP in 1995 to lead Home Care and Case Management, and has since held a number of leadership positions, advancing from Vice President to Senior Vice President to Executive Vice President to Chief Operating Officer. In 2015, she assumed the title of President and CEO. Ms. Bell has made numerous contributions to CHOP, including the development of one of the largest pediatric ambulatory networks in the country, the implementation of a single-platform electronic health record, the expansion of the Hospital's 4-million-square-foot campus, and the development of many nationally recognized clinical and family-centered care programs. Her background in patient care has given her a deep appreciation for the clinical world, and she always stays focused on improving care for children.
