COURSE INFORMATION

COURSE OVERVIEW

The primary care provider for children frequently faces challenges in the diagnosis and management of allergic, immunologic and infectious disorders.

This course is intended to provide a practical review and an update of new trends and published guidelines in these areas for pediatricians, family practitioners, nurse practitioners, nurses and other healthcare professionals.

GENERAL INFORMATION

The conference will be held in the Ruth and Tristram Colket, Jr. Translational Research Building at Children's Hospital of Philadelphia on Friday, Nov. 10, 2017. Registration will begin at 7:30 a.m. The registration fee includes breakfast, lunch, breaks, parking and syllabus materials.

COURSE OBJECTIVES

After attending this program, the participant should be able to:

- Explain the newest recommendations to aid in the prevention of food allergy development
- Discuss new biologics being studied in pediatric atopic dermatitis
- Describe strategies to manage Vocal Cord Dysfunction in your practice
- Discuss the environmental impact on asthma development and control
- Describe the newest global emerging infections

REGISTRATION FEES

The registration fee includes registration materials, continental breakfast, lunch, breaks and parking. As part of our green initiative, syllabus material will be available online.

Physician \$175

Other Healthcare Providers \$75
