COURSE OVERVIEW
Calling all maternal-fetal medicine specialists, geneticists, obstetricians, pediatric surgeons, radiologists, neonatologists, genetic counselors, nurses and sonographers. Leaders in the field from Children's Hospital of Philadelphia and the National Institutes of Health will address key concepts in prenatal counseling, fetal therapy, genetic testing, perinatal surveillance, surgical management and outcomes, as well as innovations and evolving research.

GENERAL INFORMATION
The conference will be held Saturday, Nov. 4, 2017, at the Washington Marriott at the Metro Center, Washington, D.C. Registration will begin at 7:30 a.m. The registration fee ($75 for physicians, $50 for all other healthcare professionals) includes continental breakfast, lunch and program materials.

LEARNING OBJECTIVES
At the conclusion of “Breakthroughs Before Birth” the participant should be able to:
1. Discuss ongoing research related to the human placenta, its function and potential future therapeutic options
2. Describe the impact of abnormal placentation on prenatal diagnosis, fetal therapeutic options and maternal-fetal outcomes
3. List the maternal and neonatal risks and benefits, research, and future implications associated with fetal therapy
