**Complex Immune
Dysregulation Syndromes:
*Discovery, Diagnosis,
Treatment***

Friday, June 7, 2019

Ruth and Tristram Colket, Jr.
Translational Research Building on the
Raymond G. Perelman Campus

A symposium hosted by the CHOP
Multidisciplinary Immune Dysregulation
Team for clinicians, researchers and
those who care for patients with complex
multiorgan immune diseases.

Topics will include: approaches to genetic
discovery of novel immune dysregulation
syndromes; the roll of stem cell
transplantation in monogenically defined
and polygenic immune dysregulation
syndromes; advances in functional
immunology diagnostics; and challenges
of clinical care and research in rare and
orphan diseases.
