Breakthroughs. Every day.™

MAIN CONFERENCE OVERVIEW

This multidisciplinary conference brings experts together to provide evidence-based, practical approaches for some of the most challenging topics in pediatric nutrition.

PRE-CONFERENCE SESSION OVERVIEW

This half-day pre-conference will focus on practical approaches for clinicians to manage children on blenderized tube feedings, addressing the challenges in both the inpatient and outpatient settings through a combination of lectures and hands-on sessions.

TARGET AUDIENCE

Dietitians, physicians, nurse practitioners, nurses, social workers and other allied healthcare professionals.

CONFERENCE OBJECTIVES:

Upon completion of this program, participants will be able to:

1. Describe emerging evidenced-based nutritional therapies for the highlighted conditions
2. Discuss current knowledge of select gastrointestinal conditions
3. Explain the current literature and practice recommendations for emerging and new evidence on nutritional management of complex gastrointestinal conditions
4. Describe the practical approaches for clinicians to manage children on blenderized tube feedings

REGISTRATION FEE

The registration fee includes registration materials, continental breakfast, lunch, breaks and parking. As part of our green initiative, syllabus material will be available online following the conference.
