COURSE OVERVIEW

The primary care provider for children frequently faces challenges in the diagnosis and management of allergic, immunologic and infectious disorders.

This course is intended to provide a practical review and an update of new trends and published guidelines in these areas for pediatricians, family practitioners, nurse practitioners, nurses and other healthcare professionals.

GENERAL INFORMATION

The conference will be held in the Ruth and Tristram Colket, Jr. Translational Research Building on the Raymond G. Perelman Campus on Friday, Oct. 11, 2019. Registration will begin at 7:30 a.m.

COURSE OBJECTIVES

After attending this program, the participant should be able to:

- Discuss the implications of the anti-vaccine movement and the impact on public health
- Discuss current controversies and recent literature updates on asthma flare plans
- Provide an overview of the evolving thoughts on the atopic march

REGISTRATION FEES

The registration fee includes registration materials, continental breakfast, lunch, breaks and parking. As part of our green initiative, syllabus material will be available online.
