Breakthroughs. Every day.

COURSE OVERVIEW

This conference is intended for local and regional primary care physicians, psychologists, physician assistants, nurses, nurse practitioners, social workers, dietitians and other healthcare providers specializing in family medicine, internal medicine, gynecology, pediatrics and psychiatry. The program's aim is to increase the overall knowledge, understanding and competencies of multidisciplinary providers in areas of importance in the healthcare of adolescents. The learning format will be virtual and will include didactic lectures with interactive question-and-answer sessions and small group breakout sessions, as well as expert hot topic panels and interactive workshops.

GENERAL INFORMATION

The registration fee includes the conference live stream, online presentations, and CME/CEU and other credits. The registration fee is \$40 and \$20 for trainees.

COURSE OBJECTIVES

- Discuss the importance of multidisciplinary collaboration in providing optimal care for adolescents
- Describe the role that racism and structural inequities have on the social determinants of health in adolescents and young adults
- List strategies to communicate effectively with adolescents in special populations
