Breakthroughs. Every day.

OVERVIEW

This international conference is targeted for healthcare providers working with survivors of childhood and adolescent cancer including but not limited to advanced practice providers, nurses, physicians, social workers, and school nurses.

The conference offers a wide variety of topics related to all aspects of cancer survivorship including hope; endocrine late effects; pediatric leukemia: past, present, and future; transition from pediatric to adult services for adolescents and young adults with cancer; fertility; neuro-oncology, neuropsychology interventions; and an overview of stem cell transplant for the non-oncology patients.

Opportunities for interactive learning and professional networking will augment the didactic components of the sessions.

Don't miss this unique learning opportunity for all interested in childhood and adolescent cancer survivorship!

REGISTRATION

The conference will be held at Children's Hospital of Philadelphia in the HUB Auditorium. The registration fee includes registration materials, breakfast, lunch, breaks and reception.

Full Course — \$500

Students — \$200 (full course) \$100 (One-day only)

One-Day — \$250

OBJECTIVES

Upon completion of this two-day conference, attendees will have increased knowledge on practices of childhood cancer survivors. Learners will be able to:

- Describe and discuss recent advances in the science related to childhood cancer survivorship
- Identify the unique care needs of children and adolescents who have cognitive impairment
- Determine those families at greatest risk for significant disruption in family functioning
- Describe the changes in standard follow-up guidelines and alter practice to incorporate the recent updates
