Course Information

The Section of Pediatric Dermatology of Children's Hospital of Philadelphia announces a course on pediatric skin disorders oriented toward primary care clinicians. This will be the seventh biannual conference. The 2021 course will be held virtually on Friday, April 16, 2021. The registration fee includes registration materials and virtual breaks.

The course is intended for practicing clinicians who care for children including, but not limited to, pediatricians, dermatologists, family practitioners, general practitioners, nurse practitioners, physician assistants, physicians-in-training and other allied healthcare professionals. Other specialists are welcome to attend. Participants will receive current information on dermatologic disorders in neonates, children and adolescents.

Highlights of the course include:

- Updated information on pediatric skin diseases
- Case-based panel discussions regarding treatment strategies for common skin-related disorders
- Virtual patient photo reviews of volunteer patients

Objectives

Upon completion of this course, participants should be able to:

- Identify and manage common newborn skin conditions
- Diagnose and manage common pediatric skin disorders, such as atopic dermatitis, acne, hemangiomas, as well as common skin infections like warts and molluscum
- Review recent developments that will help the participant identify vascular anomalies and skin findings in COVID19

Conference Registration Fees
