COURSE INFORMATION

The Section of Pediatric Dermatology of Children’s Hospital of Philadelphia, in conjunction with the Department of Dermatology of the Perelman School of Medicine at the University of Pennsylvania, announces a comprehensive program on pediatric skin disorders. The 2023 course will be held at Children’s Hospital of Philadelphia in the HUB for Clinical Collaboration on Friday, April 21, 2023. The registration fee includes continental breakfast, lunch, refreshments, and course materials.

The course is directed toward practicing dermatologists, pediatricians, family practitioners, resident physicians, nurse practitioners, physician assistants, and allied health care professionals. Participants will receive current information on dermatologic disorders in neonates, children, and adolescents.

HIGHLIGHTS OF THE COURSE INCLUDE:

- Online video patient viewing and discussion
- Updated information on pediatric skin diseases
- Workshops, including more in-depth interactive sessions with experts in pediatric dermatology

OBJECTIVES

Upon completion of this course, participants should be able to:

- Identify and manage common newborn skin conditions that may require imaging
- Diagnose and manage common pediatric skin disorders, such as head lice, hair issues, vascular anomalies, and rheumatologic conditions
- Review recent developments in the treatment of acne and atopic dermatitis
