Overview

The CHOP at Virtua Symposium has a more than 15-year history of providing evidence-based education for the interprofessional pediatric healthcare community of our region, which includes pediatric outpatient, family medicine, hospital medicine and emergency department physicians, as well as pediatric nurses, advanced practice providers, and all members of the care team.

This year's symposium will have a unifying theme of Quality Improvement (QI). The program will provide attendees with up-to-date information on current best practices by subject matter experts and will emphasize the use of guidelines and CHOP pathways to improve care of children. Through examples of improvement projects and ideas on how to implement improvement based on current guidelines, the program will provide a QI toolbox for participants.

General Information

The conference will be held at the Virtua Barry D. Brown Health Education Center, 106 Carnie Blvd., Voorhees Township, N.J.

The registration fees are \$75 for MDs/DOs/APNs and \$40 for RNs/trainees. The fees include continental breakfast, breaks, lunch, parking and syllabus material.

Course Objectives

- Gain familiarity with approaches to QI used in healthcare systems
- Identify at least three antimicrobial stewardship strategies that can be applied

to quality improvement initiatives to optimize antibiotic use

- To recognize strategies for evidence-based delivery of STI and HIV prevention services
- Consider the value of CHOP Newborn Care Network consensus in NICU QI projects
- Understand and utilize screens for diagnosis and management of mental health concerns
- Utilize quality improvement methodology to incorporate evidence-based guidelines into patient care (and earn MOC credits!)
